## ■ Conectar con el usuario Administrador(System , SYS)

## ■ Crear el esquema Stage o Star dentro de USERS

## ■ Crear el esquema Stage o Star dentro de USERS

The image displays two screenshots of the Oracle 'Create User' dialog box, illustrating the steps to create a user with a specific tablespace.

**Left Screenshot (User Info Tab):**

- User Name:** STAR (highlighted with a red box)
- User created on:** (empty field)
- Authentication:** ☒ Use Database Authentication, ☐ Use Operating System Authentication, ☐ Use Enterprise Authentication
- New Password:** (masked with dots, highlighted with a red box)
- Verify New Password:** (masked with dots, highlighted with a red box)
- ☐ Password expired (user must change password on the next login).
- Profile:** (dropdown menu)
- ☐ Account is locked
- ☐ Editions Enabled

**Right Screenshot (Tablespace Tab):**

- Default tablespace:** USERS (highlighted with a red box)
- Quota on default tablespace:** ☒ Unlimited, ☐ Megabytes, ☐ Kilobytes. Enter 0 to revoke tablespace quota.
- Temporary tablespace:** TEMP (highlighted with a red box)
- Quotas aren't needed on temporary tablespaces.**
- ☐ Set Tablespace names as defaults for all User Creates

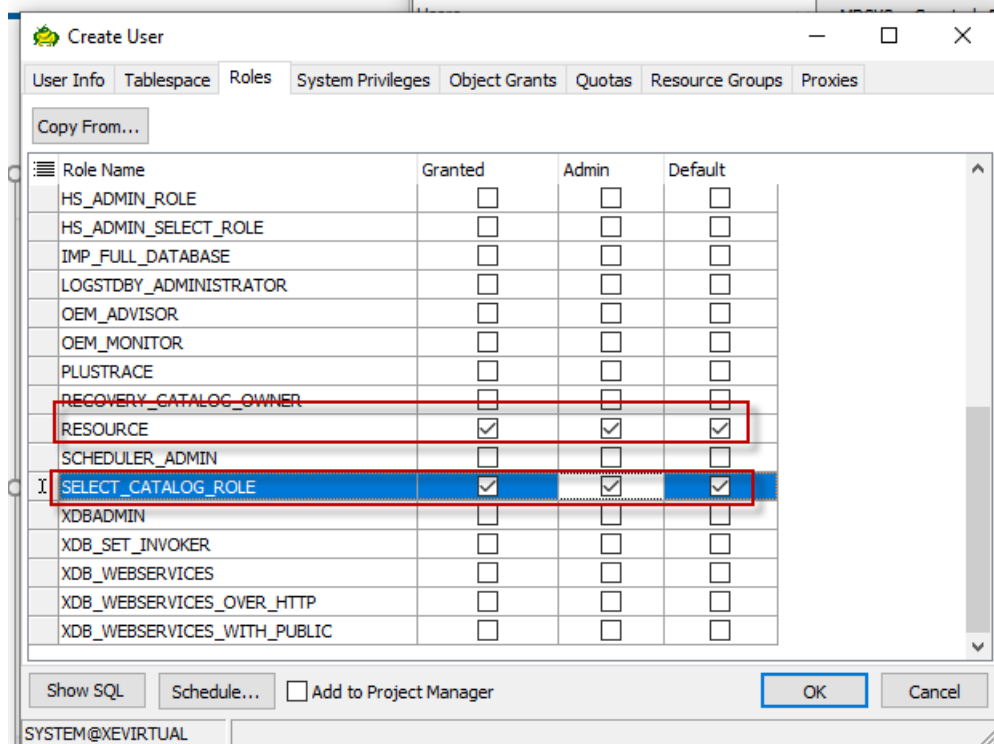

**Bottom Bar:**

- ☐ Add to Project Manager
- ☐ Add to Project Manager

SYSTEM@XFVRTI IAI

# Pasos para crear Bds Stage y Star en Oracle.

- Definir los Roles.
- CONNECT
- RESOURCE
- SELECT CATALOG ROLE

## Crear el esquema Físico.

- Conectarse al nuevo usuario creado STAR.
- Crear el esquema físico en Data Architect a partir del Modelo Lógico.
- Crear el script generado.
- Ejecutar el script generado en el esquema STAR.

# THANK YOU
